

# HP Software Updates Service

HP Customer Support Contractual Services

The HP Software Updates Service can help you keep software and related information up to date for all your systems.

Ongoing success with IT systems requires keeping the software and related information up to date for all your systems. The HP Software Updates Service can help you achieve this. As HP releases updates to software and reference manuals, these updates are made available to your system manager or designee, including updates for selected HP-supported third-party software products as such updates are made available from the original software manufacturer. The service also includes a licence to use and copy the software updates for each system covered by the original HP (or original manufacturer) software licence.

For some HP software products and some third-party products, you will be notified when a new software update is available, and you can then choose when to receive the update. For most third-party software products and some HP software products, HP will automatically send the software updates to you.

This service also provides electronic access to related support information, enabling any member of your IT staff to locate essential product and support information. For third-party products, this access is subject to availability of such information from the vendor.

For certain products, you may have a choice of delivery media. For example, DVD technology offers an efficient and cost-effective alternative to CD-ROM and other traditional media options. Where available, software manuals may be delivered on media instead of on paper.

## Service benefits

This service enables you to:

- Improve productivity of system managers and operators
- Increase system performance and reduce downtime due to software defects
- Reduce the cost of purchasing individual software updates through subscription savings

## Service-feature highlights

- Notify your system managers when new software updates are made available
- Verify that licences to use the latest released updates of HP and selected third-party software are in place
- Licence to use and copy software updates
- Software product and documentation updates
- Electronic software information

## Specifications

Table 1. Service features

Feature	Delivery specifications
<b>Licence to use and copy software updates</b>	The customer receives a licence to use and copy software product updates for the HP-supported systems covered by the original software licence. The customer can use and copy the supplied updates to HP or third-party software on each system covered by this service as described in Exhibit E16, HP Terms and Conditions of Sale and Service, and in Exhibit SS5, HP Support Services.
<b>Software product and documentation updates</b>	As HP releases updates to HP software and reference manuals, they are made available to the customer's system manager or designee. For selected third-party software, HP will provide software updates as such updates are made available from the third party, or HP may provide instructions on how to obtain any software updates directly from the third party. For certain products, the customer may be offered a choice of media. An access code, licence key – or instructions for obtaining an access code or licence key – will also be provided to the customer when it is required to install or run the latest software revision.
<b>Electronic software information</b>	<p>As part of this service, HP will provide access to certain software-related electronic and web-based tools and services, as available.</p> <p>As a Software Updates Service contract holder, the customer has access to services as available to all registered software support users, plus additional capabilities such as searching knowledge databases and downloading HP software patches. If software patches and updated information for HP-supported third-party products are made available to HP by the original software manufacturer, the customer may also have access to these as part of this service.</p> <p>For some HP products, the Software Update Manager (SUM) – an online service for software updates – is available at the customer's option. The SUM allows the customer to download software and documentation updates, order physical media, view order status and history, and receive software update notifications via e-mail.</p>

Table 2. Delivery response methods

Delivery response method	Delivery specifications
<b>Preferred software update media</b>	
• <b>HP-recommended media</b>	If the customer does not select a preferred software update media type or selects a media type that is not offered, the HP-recommended media type or most commonly requested media type, if more than one choice exists, will be shipped.
• <b>DVD</b>	The customer may choose to have all software updates delivered on DVD, where available. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.
• <b>CD</b>	The customer may choose to have all software updates delivered on CD-ROM, where available. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.
• <b>6250 BPI magnetic tape</b>	For selected products, the customer may choose to have software updates delivered on 6250 BPI magnetic tape, where this is offered. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.
• <b>DDS (DAT)</b>	For selected products, the customer may choose to have software updates delivered on DDS (DAT) tape, where this is offered. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.

## Specifications

Table 2. Delivery response methods, continued

Delivery response method	Delivery specifications
<b>Preferred documentation media</b>	
• <b>HP recommended media</b>	If the customer does not select a preferred documentation media type or selects a media type that is not offered, the most commonly requested of CD or DVD will be shipped, if available. Paper will only be delivered when it is the only media type.
• <b>DVD</b>	The customer may choose to have all software reference manuals delivered on DVD, where available. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.
• <b>CD</b>	The customer may choose to have all software reference manuals delivered on CD-ROM, where available. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.
• <b>Paper</b>	The customer may choose to have all software reference manuals delivered in paper format, where available. If this media type is not available for some products, the software update will be shipped on the most common media type for that product.
• <b>DVD and paper</b>	The customer may choose to have all software reference manuals delivered on DVD and paper, where both media types are available. If these media types are not available for some products, the software update will be shipped on the most common media type for that product.
• <b>CD and paper</b>	The customer may choose to have all software reference manuals delivered on CD and paper, where both media types are available. If these media types are not available for some products, the software update will be shipped on the most common media type for that product.

## Service eligibility

To be eligible to purchase software updates, the customer must be properly licensed to use the revision of the software product that is current at the beginning of the service-contract period; otherwise, an additional charge may be applied to bring the customer into service eligibility.

## Service limitations

For customers with multiple systems at the same location, HP may limit the number of physical media sets containing software and documentation updates provided as part of this software update service.

For some products, software updates include only minor improved features; new versions or revisions must be purchased separately.

Upon the customer's request, HP will provide the customer with a list of software products that do not include new versions or revisions in the software update price. The price for new versions or revisions of these software products is not included in the HP Software Updates Service.

## Customer responsibilities

The customer must retain and provide to HP upon request all original software licences, upgrade licence agreements and licence keys.

The customer will use all software products in accordance with current HP software licensing terms corresponding to the customer's prerequisite underlying software licence or, if applicable, in accordance with the current licensing terms of the third-party software manufacturer, including any additional software licensing terms that may accompany such software updates provided under this service.

When the customer receives hard-copy or e-mail notification that a new revision of software is available, it is the customer's responsibility to reply to the notification in order to receive the new software update.

The customer is responsible for registering to use the electronic HP facility in order to obtain software product information and download HP software patches.

# HP Software Updates Service

This service also provides electronic access to related support information, enabling any member of your IT staff to locate essential product and support information.

## General provisions/other exclusions

Distribution of certain third-party software updates, licence agreements and licence keys may be made directly from the third-party vendor to the customer.
